I. Introduction :

The development of women entrepreneurs and their involvement to the development of the country is very much visible in India. In a short period of time the number of Women Entrepreneurs increased all over the Country. Women entrepreneurs plays a vital role in creating employment to others in the well – Organized sectors and set the trend for other Women Entrepreneurs to develop. They should be praised for the increased contribution, utilization of advanced technology, identifying, the niche in the export market and investing high in their business activities. The capacity of the women entrepreneurs and the capability of contribution is more than what the women entrepreneurs already do.

In the economic growth the women entrepreneurship is accepted as a significant source. The women entrepreneurs create new Jobs for themselves and also for others and render a great service to the society. The women entrepreneurs face lot of discrepancy regarding the gender based issues in starting the new businesses.

In order to reduce those discrepancy, the government should take initiative to help women entrepreneurs by providing various schemes, incentives and promotional measures.

Women Entrepreneurs :

In the past decades women are restricted to be there in the four walls of the house. The achievement made by the Women as a supportive role in the family is viewed exclusively. But now-a-days the scenario is completely changed. The women have proved that they are not less than their counter part in the life. The women face tasks in their life. Because of all these constraints they become stressed out in their actions. When perceived pressure exceeds a persons perceived ability to cope with it results in stress various complicated work performed by the women in the family and the entrepreneurial activities leads to greater stress which cause conflict in the workplace.

Stress :

Stress in the distinct common response of the human body to a request made by it. Everyone in this world undergo some kind of stress or the other. In many cases the stress can be reduced with the passage of time or when an individual gets familiar to the condition. The demands of the work environment in the organization is on psychological situation which results in organizational stress.

Definition of stress by various Authors

Kahn et.al (1964) stress as a function or discrepancies between one’s expectations and one’s ability to meet demands and discrepancies between the individuals expectations and their personality.

Vasumathi et.al (2003) stress is a result of our expectations, greed, desires, and ambitions, when there is a discrepancy between these and the outcome of our effects to achieve success.

Causes of Stress :

In the fast growing technical environment everyone in this world face stress. There are many things which cause stress to an individual. These stress can be organized easily when it is under our control and view,

when the individual is under stress's control these comes the major issue. There are various methods to control the stress faced by the entrepreneur. Some of the most common stress sources are discussed below

Stress Faced by Women Entrepreneurs :
